Marine Cultural Heritage

WIO
Conference

UEA

The word cloud is oriented diagonally, with the word "shipwrecks" at the bottom center. Other prominent words include "coastal" (vertical), "spoiled", "contact", "water", "trade", and "sites". To the left of the main cluster, there is a vertical column of smaller words: "milieu", "past", "culture", "Maldives", "cuisine", "artefacts", "divers", "fishing", "livelihood", "business", "tourism", "transport", and "war". Above the main cluster, the words "development", "sacred", "ecofacts", "reefs", "food", "economy", "communities", "archaeology", "history", and "future" are scattered. At the very top, the word "landscape" is positioned above the word "threatened".

GCRF

A word cloud centered around the word "present". The words are arranged in a circular pattern, with larger words in the center and smaller words branching out. The colors of the words are primarily blue and teal, with some white text on the right side.

The central words are:

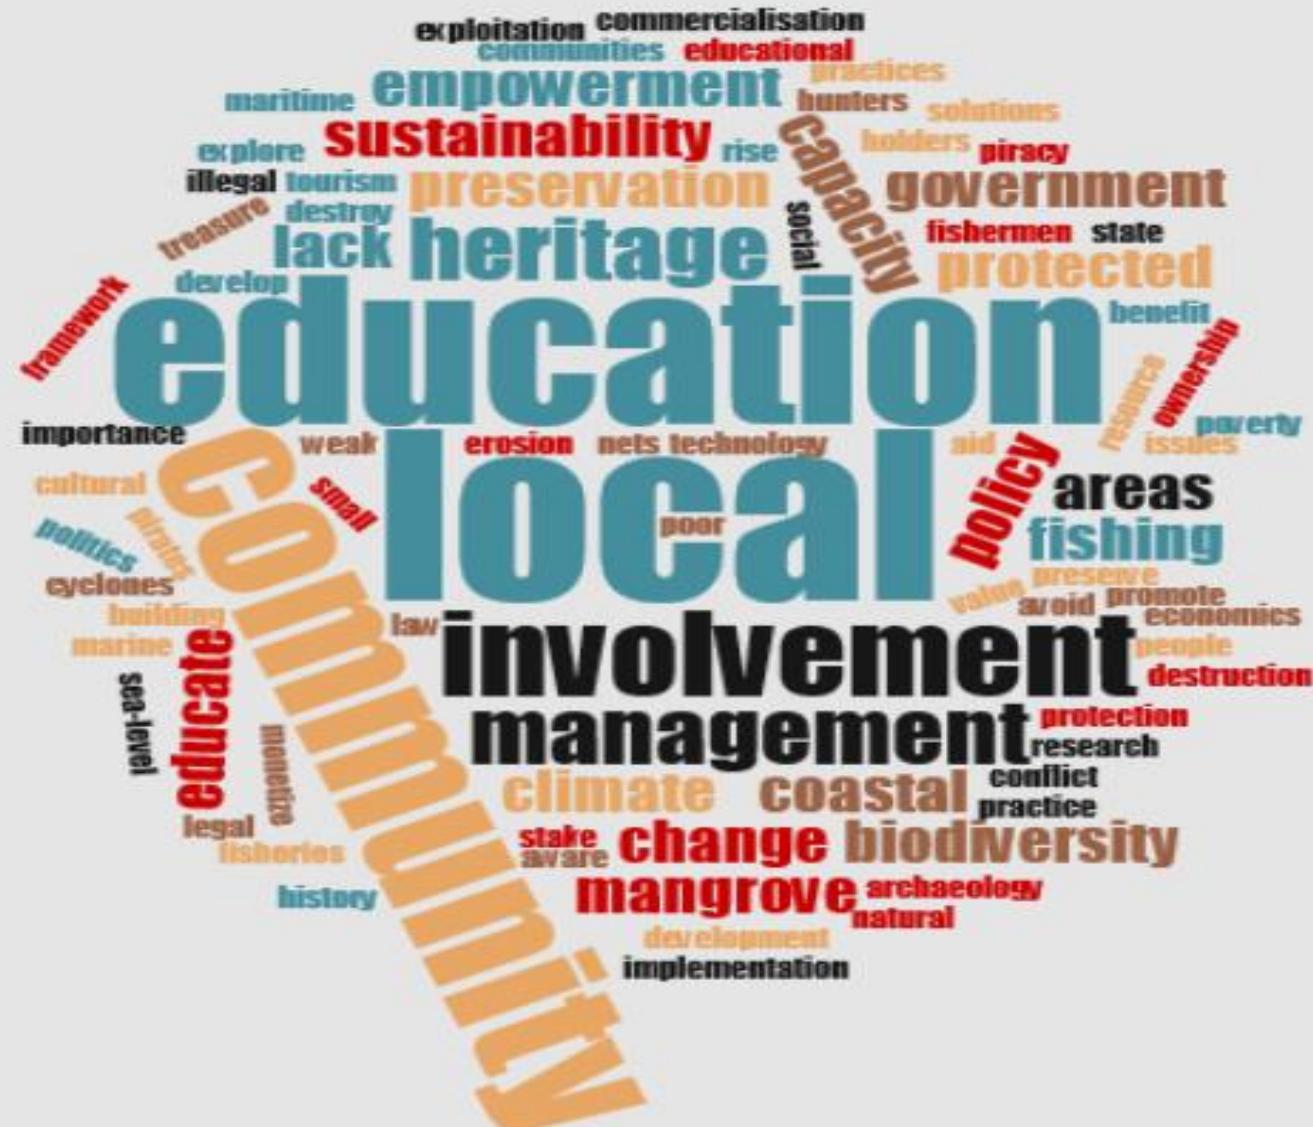

- present
- coastal
- sea
- heritage
- connections

Surrounding words include:

- fisheries, reanimation, relationship, knowledge, sound, movement, womb, underwater, Humanity, Imaginaries, indigenous, seaweed (top row)
- seafarers, dockers, voice, fish, museums, watery, spaces, living (second row)
- community, protection, stories, land, place, fish, future, water (third row)
- boats, uses, ports, salt, animals, smell, narratives, waves (fourth row)
- confidence, identity, routine, lifeways, seas, people, pride, interface (fifth row)
- treasure, longshoremen, topography, shipwrecks, interactions, meaning, marginalised (bottom row)

Mozambique

Marine issues/ threats

Kenya/ Tanzania Issues/ Threats

The diagram is a word cloud centered around environmental issues, primarily focusing on development, pollution, and climate change. The words are arranged in a roughly circular pattern, with larger words in the center and smaller words radiating outwards. The colors of the words vary, including red, blue, orange, and green, which likely represent different categories or sources of information.

Central Words: Development, Pollution, Change, Shoreline, Globalization.

Surrounding Themes:

- Development:** Nearshore, Benefits, Awareness, Markets, Poverty, Zoning, Reclamation, Legislation, Rights, Functioning, Direct.
- Pollution:** Lack, Climate, Human Conflict, Cost, Oil, Land, Will, Overfishing, benefit, Unregulated, Coastal, Preservation, Value, Capacity, Global Activities.
- Change:** Overextraction, Data, Enforcement, Habitat, Degradation, Policies, Will, Overfishing, benefit, Unregulated, Coastal, Preservation, Value, Capacity, Global Activities.
- Shoreline:** Overharvesting, Understated, Overexploitation, Traditional, Infrastructure, Activities.
- Globalization:** Global, Activities.
